See reverse for important additional information and our fee schedule.

**Please read the following information:**

The band requires approximately 1 hour to warm up and tune immediately prior to the performance time.\* Bagpipes are a loud instrument, so we prefer to have a room or area that is away from the performance location. It is your responsibility to ensure in advance that the band will have an appropriate warm up location. If the performance is indoors, the tuning area must be, as well. If it is outdoors, we should also tune outdoors.

**Warm up location (if known at this time):** \_\_\_\_\_

---

Weather: Bagpipes can play in the rain! However, cold weather can seriously damage bagpipes, leading to expensive repairs. In general, the band does not perform outdoors unless the temperature is expected to be in the mid-40s or higher.

**Band Fee Schedule**

Our fees vary depending on length of performance, number of players desired, and travel distance. Below is a rough guide intended to give you an idea of what charge to expect. We are also able to provide multiple performances at a single event. Please contact us if you have questions. We'd be happy to discuss our performance options with you.

After reviewing your request, the band will choose an appropriate fee for your performance. Coeur d'Alene Fire Department functions are not subject to a fee. Performances for other fire department functions are offered at a minimum 50% discount. Performances for area firefighters are charged half of our regular fee.

Number of Players	Performance Length	Fee	Fee including travel charges**
